

**Additional UPDATE; week 11**

**Hutchison Ports ECT Rotterdam**

### **Demonstration adjustment retirement age**

On Monday the 18th of March 2019, trade unions FNV and CNV are staging a national demonstration in The Hague to draw attention to pensions.

As part of this demonstration, the unions have announced collective industrial actions at companies in, among other places, the port of Rotterdam, including ECT. These will take place in any case during the Night Shift from Sunday the 17th of March 2019 to Monday the 18th of March 2019 and, as an extension of that, possibly also during the Day and Evening Shift on the 18th of March 2019. In relation to the demonstration, the trade unions refer to an ultimatum given to the national government on the 20th of December 2018. The collective actions relate to national government policy.

The collective actions will have an impact on ECT's service provision during the Night Shift starting on the evening of Sunday the 17th of March 2019 and probably the Day and Evening Shift on Monday the 18th of March 2019. During the aforementioned periods, ECT will however also continue to offer the best possible service to various groups of clients. ECT will do everything possible to keep any disruption to a minimum.

We will further inform you about current developments through your contact persons and via our service messages.
